

PHILIPPGROUP

PHILIPP Fixing disc for gluing

VB3-B-066-en - 06/18

Application Instruction

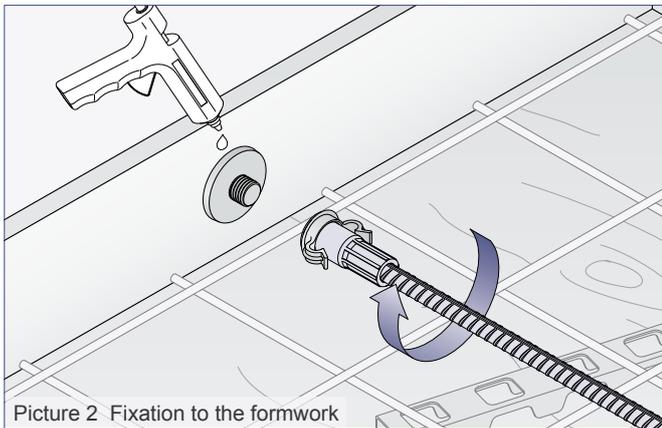

PHILIPP Fixing disc for gluing

The plastic Fixing disc for gluing is used for a quick and easy fixation of threaded transport anchors or fixing sockets to the formwork. It can be used only in combination with the PHILIPP lifting device Lifting loop with threaded end (also with Adapter for lateral tension).

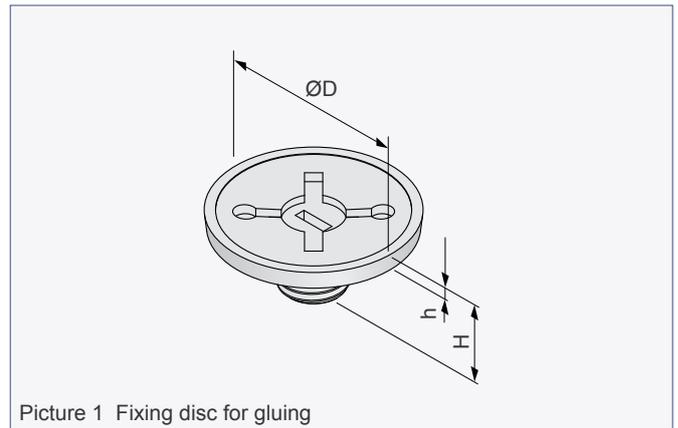

Table 1: Dimensions of Fixing disc for gluing

Ref.-No.	Type RD/M	ØD [mm]	H [mm]	h [mm]
72KFM12	12	50	14	5
72KFM16	16	50	13	5
72KFM20	20	50	15	5
72KFM24	24	50	17	5

The Fixing disc for gluing is attached to the formwork, e.g. with hot glue or double-sided adhesive tape to the formwork (picture 2). Finally, a threaded anchor can be screwed on.
